

🎉 CELEBRATING THE 42ND ANNIVERSARY OF VIETNAMESE TEACHERS' DAY (20/11/1982 – 20/11/2024) 🎉

The Youth Union of the Faculty of Electrical and Electronics Engineering successfully organized a faculty-level cultural performance contest in celebration of this special occasion.

❤️ ❤️ ❤️ The competition featured a wide variety of performances, each carrying the unique spirit of Electrical Engineering students. From vibrant youth love songs to powerful, heroic melodies praising the nation, the stage was full of energy. At times, the atmosphere felt as intense as a martial arts show, then suddenly filled with laughter from witty and humorous acts. And in some moments, the audience was deeply moved, with tears welling up as stories of war, loss, and sacrifice were brought to life...

Though not overly elaborate or professional, the performances delivered were truly engaging, heartfelt, and impressive.

♥♥♥ The success of the event would not have been possible without the enthusiastic cheers, applause, and support from more than 400 audience members.

♥♥♥ That night was not just a competition between teams—it was a moment when the entire Electrical and Electronics family came together, sharing the same energy and passion.

🌸 Wishing all teachers good health, happiness, and continued success in their noble career of education.

🌟 Wishing all students the confidence to grow, improve, and strive toward a bright future!
