

🎉 ELECTRICAL & ELECTRONICS SPORTS FESTIVAL 2025 – A PROUD FINALE! 🎉

The Faculty of Electrical and Electronics Engineering Sports Festival 2025 has officially come to an end in a joyful atmosphere filled with unforgettable memories!

🔥 Throughout this morning, we witnessed incredible sporting moments, powerful tug-of-war battles, and above all, an unbreakable spirit of teamwork. Our students proved that engineering minds are not only skilled in programming and control systems, but also full of energy and passion on the field!

🏆 CONGRATULATIONS TO OUR CHAMPIONS!

A big congratulations to all participating teams, especially those who achieved outstanding results. Your victories are the result of dedication, unity, and relentless effort:

- 🏆 Class 16DHTDH01 – First Prize (Tug of War)
- 🏆 Class 16DHDT01 – First Prize (Sack Race)

🙏 Sincere thanks to the Organizing Committee, our lecturers, and especially all athletes and supporters who contributed to such a vibrant and successful event!

🔥 The festival may be over, but the spirit lives on! Let's carry this energy, determination, and teamwork into our studies and scientific research.

🚀 See you all next year with even more exciting challenges ahead!
